Hi Susan!

You're very kind to offer such a compliment! It's easy for me to be the best when I have the BEST management team working so hard for me! I often share ownership stories with friends who own out-of-town properties. While they all have varying degrees of satisfaction with their management companies, NONE of them even come close to the level you all provide. In the 15 years Christone and I have been associated, I have NEVER been disappointed or EVER considered another company. The primary reason is people like you, Susan, who make the difference. You can tell Sr. & Jr. I said that ☺

Concerning my house on Mayfair, how about doing just the North side of the house this time.

Also, I called Kaye and told her the good news about her house. She was quite relieved to say the least. I asked her to call you about the fridge. She said she would, so you should hear from her very soon.

Thank you again, Susan! If you don't hear from Kaye in a day or so, let me know. Maybe I can relay a message.

Sincerely,
W2
